# IT'S A MATTER OF TASTE

The Bar Collection has been a bestseller for the Moser glassworks for 90 years. It owes its success to its timeless design, which looks just as modern today as it did in 1934. The Bar Collection is the perfect embodiment of functionalism.

The collection reflects the modern lifestyle of the 1930s, which included the phenomenon of the bar. These were places where people could relax and enjoy their favorite drink to the sound of jazz music.

# TIMELESS DESIGN THAT NEVER AGES

Designer Rudolf Eschler for the Bar collection has combined the square bottom with the sculptural shape of the glasses, carafes, jugs and bowls. They are beautifully stable and their curves show off the refraction of light. And the hand-cutting creates the illusion of melting ice cubes inside the glass.

# LIMITED EDITION OF THE ICONIC COLLECTION

To celebrate the 90th anniversary of the collection, we have produced a limited edition of 90 sets including 2 glasses and a crystal decanter. Each bears its number from 1 to 90, decorated with the golden letter M and packaged in a gift box.
